Continuation of 5. does NOT place the application in condition for allowance because: Applicant makes the same argument as in the Response/Reply and is directed to the Response to Argument (Paragraph #18) of the Final Rejection office action. In #18, Applicant gives an example that a property is "blue or "dimmed." Thus, a property notification would notify when the subject is "blue" or "dimmed," for example. Claim 1 of Larson teaches "receiving notification when the property is set." Therefore, if the subject is set to "blue" or "dimmed," a (property) notification would occur.
